Secret of Darkness from Prague have played blackened death metal since 2005: aggressive riffs, energetic guitar solos and dark melodies, built on Swedish death metal and Norwegian black metal.

After *(In)Humanity* (2011), *Neotericus Universum* (2014) and *Blacksun Rising* (2023), the band is working on new material that goes further into black metal. Live they have played Brutal Assault, Basinfirefest and Metalgate Czech Death Fest, supported Rotting Christ twice and toured Hungary, Austria, Poland, Germany and Norway.

VALOSTA VARJOON

Black metal soaked in dirty rock 'n' roll and punk

ORIGIN	Neumarkt in der Oberpfalz, Bavaria
ACTIVE SINCE	2016
LABEL	Folter Records
TERRITORY	Germany and Europe

Started in 2016 as the solo project of V.V. and a duo since Sturmwolf joined in 2018. The early melodic black metal has given way to a rawer sound with rock 'n' roll and punk running through it.

No fantasy here. The lyrics draw on the myths and legends of their home region, on melancholy, misanthropy and alcohol, and on the *Grattler* life, Bavarian for living on the margins.
